TRANSPORT OF WIND TURBINES
The cornerstone for the company P. Schwandner Logistik + Transport GmbH was laid in 1991. Since then, the company has developed into a high-performance provider of international transport and logistics solutions. A subsidiary was established in Berlin in 2007 to mainly manage projects.

In collaboration with TransOst Logistik GmbH, which is responsible for the punctual and economic administration of around 175 low loaders and special purpose vehicles stationed in Germany, we offer a broad spectrum of transport possibilities across Europe.

We’re the right partner above all for the transport of large and heavy loads. Thanks to our technical know-how and our modern fleet of vehicles, we always offer you efficient business logistics and transportation solutions for agricultural and construction machinery, industrial equipment and facilities and for wind turbines in particular.

SCHWANDNER LOGISTIK IN A NUTSHELL

Heavy haulage belongs in the hands of pros
WE SOLVE EVERY LOGISTICS PROBLEM

There's no burden too heavy for us

Various problems, which we know how to solve, are especially presented when handling transport in the area of wind turbines. Special permits, traffic insurance as well as agreements with the authorities and the police are all part of the business when carrying out such transport.
THE RIGHT TRANSPORT
FOR EVERY LOAD

Qualified employees win you over with know-how

Utilizing staff knowledge and the state-of-the-art fleet, P. Schwandner Logistik + Transport GmbH can win over your customers. The knowledge of drivers and employees is always kept up to speed through training and further education. These skills are put to the test in the safe and trouble-free execution of transport activities.
BY LAND AND BY SEA

Our diverse fleet always ensures an efficient solution

Sometimes due to transport dimensions and volume, transport by road cannot be carried out. Instead, waterways are frequently used as an alternative, as they offer our customers the perfect form of transport despite the oversize loads.

Thanks to our unparalleled coordination, customers of P. Schwandner Logistik + Transport GmbH can rely on short transit times and timely delivery.
Unique service provided with every transport assignment is a matter of course in Pfreimd. The P. Schwandner Logistik + Transport GmbH doesn’t only oversee delivery, but also takes care of all other supplementary assignments. After all, various details must be planned and coordinated in order to ensure smooth handling of transport. Our skilled team assumes the transport planning.
WIND PARK MANAGEMENT

Special planning for special goods

From project launch to completion, we always accompany our customers with assistance. Especially in the case of wind power plants, the job of employees is to work in a highly concentrated manner. Our staff specially trained in the transport of wind turbines knows exactly what matters here. Organization and coordination should definitely not be disregarded in advance. A large number of permanent permits is advantageous in this case. And if there’s anything that doesn’t fit, our in-house workshop makes sure it’s made to fit.
Special vehicles, equipped with tower and blade brackets, are available for the transport of wind turbines in order to ensure safe travel. Another vehicle requirement is the extreme length of the vehicle required in order to transport wind turbine blades. The maneuverable rear tires of a vehicle can be operated via an extra control mechanism in order to also master tighter curves.
Well-orchestrated management and good coordination at P. Schwandner Logistik + Transport GmbH ensure quick and timely delivery, all perhaps made possible by high storage capacity. Waiting times are shortened thanks to large external storage spaces as well as by many logistic transfer terminals. Efficient and timely implementation ensure highest quality transport.
Tell us your destination, we’ll take care of the rest.

You save time and can concentrate on your core business.

- Advice on the most cost-efficient transport solution
- Permit applications
- Planning, execution and timely delivery

On a daily basis, the P. Schwandner Logistik + Transport GmbH team and its associated companies tackle new challenges to be mastered, whilst also emphasizing profitability and environmental awareness. Nevertheless, high transport quality, flexibility, punctuality and one-of-a-kind support and organization can still be expected.
